Title: Swinburne Innovation Studio Overview

Year: DEC 2024

Video available: <https://youtu.be/3WVUswlf8p4>

00:00:00:00 - 00:00:28:18

Swinburne Innovation Studio helps you fast track the development and marketing of new ventures with strong ties to industry research and a multidisciplinary approach. Take your idea to the next level in three stages. Swinburne Initiate program equips you with the foundational knowledge to launch a start-up. Swinburne Illuminate program takes your startup to the next level, setting your venture up for success.

00:00:28:20 - 00:01:06:16

Swinburne elevate program accelerates your startup's growth with equity free funding, access to free co-working spaces and valuable connections with world leading academics, mentors and investors to navigate your path to success. These three stages we get students to work out opportunities against that idea and see how their validations play across multiple levels on customer market. Those aspects, I think, are key and crucial for early-stage founders to develop and scale the opportunity to further turn your ideas into a reality.

00:01:06:18 - 00:01:11:00
